Yugioh duel links farming guide chart printable version free

You will not take damage due to Holy Guard and the monster will no longer be able to declare attack as long as Unhappy Girl is in attack position.Stall until last round, then use something like either Piranha army method or Vassal + Union Attack method to achieve high attack. Have Piranha direct attack for over 10,000 damage.Sample deck list: Replace Light Effigy with however many Kaiser Sea Horse you haveVideos: PandaHow to use:Use 1 Wrecker Panda, each of your and the AI turn, mill a card, cost 500 LP. It is used when the other decks would fail.The idea is cats ear tribe will make all attackers original atk 200, same as the cats so it ends in both monsters dying. Each 1000 point gives you a reward with a maximum of 8 rewards. Preferably at least 2 shards before you have 6 cards left in your deck.If you have 1 shard then use it when you have 2 cards left in the deck, if 2 shards the use them when there are 4 cards left in the deck, if 3 shards then 6 left in the deck.Use Secret Passage to Treasure on your main Spirit Ryu.Crash any secondary Spirit Ryus into enemy monster to try and adjust your LP down to less than 1000 (ideal is 100).Attack directly with Main Spirit Ryu activating and chaining his effect and discard all dragons in your hand.Sample deck list: to the underdog variant of Spirit Ryu farming: deck /youtu.be/56nesrrwEy4Blue Eyes PiranhaDeveloped to farm Bandit Keith/Uses Blue Eyes White Dragon, Piranha Army and Umi.Main skills:Mystic Depth from MakoHow to use:Summon your lv4 monster, destroy any of Keith's monster if you can. Windstorm, e-con, kuriboh, curse of anubis, half shut, etc.Equip with Shooting Star Bow - Ceal at the end to attack directlySample Deck list: GirlHow to use:Use Tea's ability Holy Guard/Try and get Unhappy Girl on the field as fast as possible. If the card is a monster you gain +200 ATK/Def per level of the monster/Use draw sense earth to retrieve Wrecker Panda from deck/Add lots of high level monsters, level 10,9,8 etc/Use a Solemn Wishes (3 is ideal in case you mill 1 or 2 of them) this gives you +500 LP per card drawn so you this lets you use Wrecker Panda ability once per turn. Attack with Cerberus who hopefully has over 9999 atk by now.ProfitSample deck: (1 cerberus) (2 cerberus) (3 cerberus)Videos of Cerberus farmingIn depth card selection discussion (3 cerberus 2 unhappy girl) /youtu.be/jmWTH1LFwPE /youtu.be/uq1yCs1TACIMillennium Scorpion/Less risk to use than Cerberus (edit: this is no longer true if using Balance skill with Cerberus, Balance makes Cerberus less riskier and more consistent) but harder to achieve 8000 points. This causes the AI to not attack you IF you have lots of LP and they do not have any atk booster.Cats Ear Tribe can be gotten from the Ultimate Rising box.Main skills:Draw sense earth (random drop from legendary duelist)How to play:Take initial damage of 1500/Draw Cats Ear Tribe/Summon Cats/Set defender spells/traps/if you have 3 cats on the field, suicide one cat on the second last turn to make room for BEUD/Use all cards/Fusion summon blue eyes ultimate dragon/Use spells like riryoku and equips to make BEUD atk over 5000./Attack to win/Videos of Cats Ear Tribe farming: /youtu.be/nSyrm18UktMPiercing Moray/Piercing moray is similar to scorpion except you don't destroy monster to gain atk but eat fish instead.You do not need stop defense because moray does piercing damage.Use Jam Breeding Machine to create infinite fishes.Can get 7000 points/Piercing Moray can be gotten from Age of Discovery box./Jam Breeding Machine can be gotten from all legendary duelist level 30 or less.Main skills:Mystic Depths (level reward from Mako)How to use:Use your other fish monster to stall until you draw either moray or painful escape.If you have painful escape use it to get moray from deck/Have your moray eat your other fish monsters until you get Jam Breeding Machine/Eat fish from Jam Breeding Machine/Use all cards/Attack for win/Videos of Piercing Moray deck: Baou/Guides /www.reddit.com/r/DuelLinks/comments/5oabvq/over_9999_damage_deck_for_grinding_consistent/Videos of Guardian Baou: Ryu** UPDATE! As of version 1.3.0 Spirit Ryu may no longer work. Play Spirit Ryu in attack position. Be careful if he sets cards down, it could be rare metamorph, in that case wait it out until you can summon BEWD, if the field gets crowded use Acid Rain/Summon BEWD with an Overwhelm set. So what you aim to get is 8000 assessment point. Give Keith some damage and he will no longer summon monsters, he will set them all.Near the end (like with 3 cards left in the deck) use Mirror Wall if you still have above 2000 LP. Use defensive cards like windstorm, curse of anubis, kuriboh and other monsters that can stall like cocoon if you don't have Unhappy girl yet.When you have Unhappy Girl, on your turn attack the AI's monsters. Make sure to have at least 3+ cards in your hand.Keep drawing cards, set any shards of greed you get. **There's a glitch in the AI where if you have Spirit Ryu on the field and many cards in your hand (3+) then the AI will not attack Spirit Ryu. Have Spirit Ryu as the only Wind dragon in your deck, fill the rest of the deck with 1x Secret Passage to Treasure, 3x Shard of Greed and the rest with Dragons that not Wind attribute.Can get 6000-7000 points/There's a Heart of the Underdog variant where you can use it instead of Shard of Greeds to draw your monsters (requires all normal monsters).Main skills:Draw sense wind (Mai level 20 or random drop for any character)How to use:Take 1500+ damage.Use draw sense wind to get Spirit Ryu from deck. Use Riryoku to transfer half of Piercing Moray atk to Scorpion./Attack directly at the end for win.Sample deck: of Scorpion: /youtu.be/1_4adVMrFfk Ear Tribe** UPDATE! As of version 1.3.0 Cats Ear Tribe may no longer work. **Cats deck can only get around 5000-6000 points. Most common is 7000 points./There are a few variations of this deck such as double Scorpion or Scorpion+Piercing Moray. Anymore will not give any benefits./List of assessment point types: decks:Mystical Beast Cerberus/Easiest deck to achieve 8k+ assessment points./There are lots of variant on this deck but it basically either 1 Cerberus or 2 Cerberus or even 3 Cerberus. Alternative is to use Supremacy Berry. Drop rate is SR/Skill to use:draw sense high (random drop from legendary duelist)/destiny draw (level reward for Yugi)How to use:Take first damage of 1800-2000/Use skill to either draw Scorpion or insect imitation spell.If have Scorpion then need to tribute summon, if have insect imitation then need to summon lv4 monster then use insect imitation on it./Have Scorpion attack monsters, gaining +500 atk for each kill./Use all cards/if using Piercing Moray then have Piercing Moray gain +600 atk for each fish it eats, can be either fellow monsters or from jam. Clear any monster keith may have. Use 3x Unhappy Girl and 3x Rai Mei (searches for Unhappy Girl) to give best chance of drawing her. You can get both cards from Tea/Use Card Trader (2 is ideal, 1 only had 1) to shuffle back in monster that you draw and get out another card. Here are tips and recommendations on what farming decks to use vs which duelist and what to watch out for./So what is farming in duel links? Farming is trying to get the highest assessment point you can possibly get vs AI duelist. Do not engage in battle./If Cerberus has higher atk than all opponent monster will go into defense position./Use all cards from your deck./Try and lower LP down to 100 or less./If using double Cerberus, use Riryoku to transfer half atk from one Cerberus to the other./Use stop defense or card rotator to put monsters in atk position. My personal preference is to use with Piercing Moray./Millennium Scorpion can be gain from defeating level 30 or 40 Odion. See video below./Videos: Duelist Advice/What deck to use against each duelist/Page 2 131 comments I prefer 3 Cerberus myself (with 2 Unhappy Girl) to use the Balance skill but can work with 1 or 2, it just less consistent./Cerberus can be traded for from Card Trader./UPDATE: As of version 1.3.0 Spirit Ryu no longer works, we have replaced it with Unhappy Girl/Main skills to draw out Cerberus:Draw sense light (random drop from legendary duelist)/Draw sense low (random drop from legendary duelist)/Sorcery Conduit (level reward for Yugi)/Balance (level reward for Mako, also random drop for any character)How to use:Take first damage, need 1500-1800 of damage (draw sense light 1500, other 2 skills need 1800) or if using Balance you need 3 Cerberus and 1-2 Spirit Ryu then you are guaranteed to start off with either a Cerberus or an Unhappy Girl (used to stall until you get Cerberus)./Use skill to draw Cerberus, skip step if using Balance./Play lots of spells to stack +500 atk onto Cerberus. Choose Yes to keep the Mirror Wall for another turn so that you lose 2000 LP./The end field should be 2 BEWD and a spare monster slot and a spare spell slot./Last turn, summon Piranha./Use 1 Riryoku to take from 1 BEWD and give to Piranha./Fusion summon BEUD/Use last Riryoku to take from BEUD to give to Piranha./Equip Axe to Piranha/if there's still space and you have LP use Autonomous Action Unit to bring LP down to below 1000./Piranha should have over 5,000 ATK, if there is a set monster use BEUD to clear it. This also triggers Solemn Wishes to give you another +500 LP so you can use Wrecker Pander on Ishizu turn as well./Add some defense traps/spell to help Panda stay alive in the first couple of turns until he mills a monster. Use Overwhelm on any Twin Barrel Dragon coin flips./Summon 2nd BEWD.
